Chris,

The Curyung Tribal Council, one of the cooperating agency tribes, submitted the attached comments Monday on the PFEIS. The Tribe shared a copy with Patty McGrath. In case you have not seen them, I am forwarding a copy to you directly.

The Tribe's comments echo concerns EPA raised during the cooperating agency meetings a few weeks ago, particularly regarding unsubstantiated conclusions about the lack of fish impacts. We trust EPA's written comments on the PFEIS continue to raise this issue (and others) and hope EPA will share those comments with the public through the agency's Bristol Bay webpage.

Best Regards,
